WEIWEI "WILLIAM" KONG

CURRICULUM VITAE

(470)-263-1217 ◎ wwkong92@gmail.com ◎ wwkong.github.io

EDUCATION

2021 **Ph.D.** in Operations Research (Expected)
Georgia Institute of Technology, Atlanta GA, US

Dissertation Title: Accelerated Inexact First-Order Methods For Solving Nonconvex Composite Optimization Problems

Advisor: Renato D.C. Monteiro

2019 **M.Sc.** in Computational Science and Engineering
Georgia Institute of Technology, Atlanta GA, US

2014 **B.Math.** in Mathematical Finance
University of Waterloo, Waterloo ON, Canada

HONORS AND AWARDS

2019 Travel Award*, Georgia Institute of Technology*

2019 Travel Award*, ICLR*

2018 – 2020 Alexander Graham Bell Postgraduate Scholarship, $63,000 (Canadian), *Natural Sciences and Engineering Research Council of Canada*

2016 – 2017 Thomas Johnson Fellowship*,* $6,000*, Georgia Institute of Technology*

2010 – 2014 Queen Elizabeth II Aiming for the Top Scholarship*, Government of Canada*

PUBLICATIONS

Refereed Journal Articles

Kong, W., Melo, J. G., & Monteiro, R. D. (2020). An efficient adaptive accelerated inexact proximal point method for solving linearly constrained nonconvex composite problems. *Computational Optimization and Applications*, 76(2), 305-346.

Kong, W., Melo, J. G., & Monteiro, R. D. (2019). Complexity of a quadratic penalty accelerated inexact proximal point method for solving linearly constrained nonconvex composite programs. *SIAM Journal on Optimization*, 29(4), 2566-2593.

Conference Proceedings

Kong, W., Liaw, C., Mehta, A., & Sivakumar, D. (2018, September). A new dog learns old tricks: RL finds classic optimization algorithms. In *International Conference on Learning Representations*.

Manuscripts in Submission

Kong, W., & Monteiro, R. D. (2020). Accelerated Inexact Composite Gradient Methods for Nonconvex Spectral Optimization Problems. *arXiv preprint arXiv: 2007.11772*. (Submitted to *Journal of Machine Learning Research*)

Kong, W., & Monteiro, R. D. (2019). An accelerated inexact proximal point method for solving nonconvex-concave min-max problems. *arXiv preprint arXiv: 1905.13433*. (Submitted to *SIAM Journal on Optimization*)

Manuscripts in Preparation

Kong, W., Melo, J. G., & Monteiro, R. D. (2020). Iteration-complexity of a proximal augmented Lagrangian method for solving nonconvex composite optimization problems with nonlinear convex constraints. *arXiv preprint arXiv: 2008.07080*.

PRESENTATIONS

2020 Invited Talk, *INFORMS Annual Meeting*

2019 Invited Talk, *INFORMS Annual Meeting*

2019 Invited Poster Presentation, *ICLR*

2018 Departmental Talk, *Georgia Institute of Technology*

RESEARCH EXPERIENCE

2016 – 2020 **Graduate Research Assistant**
Georgia Institute of Technology

*Research Focus*es:

» *Efficient Optimization Algorithms*: The development of novel optimization algorithms, with an emphasis on practicality and applicability.

» *Oracle Complexities*: The design and analysis of optimization algorithms that improve on state-of-the-art oracle complexities.

Responsibilities:

» Assist in peer reviews for journals that include *Computational Optimization and Applications* and *Mathematical Programming*.

» Draft student grants and research papers as well as mentor junior researchers in the group.

TEACHING EXPERIENCE

2016 – 2020 **Head Graduate Teaching Assistant**
Georgia Institute of Technology

Courses:

» Deterministic Optimization (2020), Graduate level, 20 students.

» Deterministic Optimization (2020), Graduate level, 34 students.

» Nonlinear Optimization (2019), Ph.D. level, 21 students.

» Deterministic Optimization (2018), Graduate level, 45 students.

» Linear Optimization (2018), Ph.D. level, 22 students.

» Linear Optimization (2017), Ph.D. level, 39 students.

» Applied Probability (2016), Undergraduate level, 53 students.

Responsibilities:

» Design assignment questions and code, write solution keys, and grade assignments, projects, and exams.

» Give lectures as a substitute, organize exam reviews, and host weekly online/in-person office hours.

2014 **Undergraduate Teaching Assistant**
University of Waterloo

Courses:

» Applied Real Analysis (2014), Undergraduate level, 85+ students.

Responsibilities:

» Grade assignments and projects with two other teaching assistants.

ADMINISTRATIVE EXPERIENCE

2014 **President**
University of Waterloo's Mathematical Finance Student Association

Responsibilities:

» Organize elections and run council meetings.

» Draft and present funding proposals for the student government.

» Invite speakers to academic workshops and host major academic events.

2013 – 2014 **Vice-President of Finance**
University of Waterloo's Mathematical Finance Student Association

Responsibilities:

» Draft funding proposals, record and approve expenses, and collect outstanding membership fees.

PROFESSIONAL EXPERIENCE

2019 **Research Intern @ Google AI**
Google LLC, Mountain View CA, US

Submitted a paper for *NEURIPS 2020* on optimization theory and classification.

2018 **Software Engineering Intern @ Google AI**
Google LLC, Mountain View CA, US

Published and presented a paper in *ICLR 2019* on using reinforcement learning to solve difficult online optimization problems.

2013 – 2017 **Senior Risk Modeling Analyst**
TD Bank Financial Group, Toronto ON, Canada

Pioneered a new logistic regression variable selection method based on mutual information and variable effect maximization.

TECHNICAL SKILLS

Software Development	Experienced with designing and writing software packages in MATLAB. For reference, see nc-opt.readthedocs.io.
Programming Languages	Working knowledge of MATLAB, C++, Python, Gurobi, and TensorFlow. Some knowledge of Julia, R, SAS, Haskell, UNIX, Condor, and SQL. For reference, see github.com/wwkong.
Markup and Typesetting	Proficient with LaTeX and reStructuredText. For reference, see nc-opt.readthedocs.io and wwkong.github.io/notes.html.

PROFESSIONAL MEMBERSHIPS

2019 – 2020	Student Member, *INFORMS*
2018 – 2020	Student Member, *SIAM*
2018 – 2020	Member, *SIAG Group on Optimization*
2018 – 2020	Member, *SIAG on Computational Science and Engineering*
